Nevada City Nugget

VOLUME V, NUMBER 28 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA THE COUNTY SEAT PAPER FRIDAY, JUNE 26, 1931

NEWTOWN MINING CO. OPERATES

Some activity prevails at Newtown in the equipment and proposed development of the Mulcahy Ranch property operated some ten years ago by the Newtown Mining Company. The property bears a fine reputation as having an exceptionally large vein of good commercial ore with occurences of high grade found in some quantity on the hanging wall side. The old Company developed the mine to a depth of 150 feet and exposed a considerable tonnage in the operations, but the mill constructed at that time was not suited to recover the values from the sulphide ores and so the property was closed down and allowed to fill up with water. Although the property was known as a very promising prospect, no one was enterprising enough to undertake the dewatering of the shaft for examination until Mr. Ed C. Jacobs, a mining engineer from Arizona obtained an option on the property from Mr. G. J. Rector of Nevada City and proceeded to demonstrate that possibilities of the mine. After about three weeks occupied in unwatering, an examination and complete sampling was made and it was found that a good body of milling ore could be developed and the values easily recovered by the installation of a flotation plant.

The present plans contemplate sinking the shaft to a depth of four hundred feet and the erection of a new mill if the ore and values are found to continue to that depth.

Electric power is now being taken from the high tension line about one mile from the mine to operate the new hoist and air compressor being installed. A complete and up-to-date plant will be in operation by about July tenth.

Mr. James D. Kneen a native of the Isle of Man on the West Coast of England, is associated with Mr. Jacobs in the operation of the property, and will take an active interest in the development.

It has been throught advisable not to form a corporation for the exploitation of the mine until the develpment is further advanced and an adequate tonnage blocked out for milling.

SKI CLUB PICNIC SUNDAY IS SUCCESSFUL

The big picnic at the Ski Club grounds east of town, was voted a success by all present. Nearly $400 was netted to go towards paying off the indebtedness of the club.

A baseball game between Nevada City and the Grass Valley Elks was staged in the afternoon and was greatly enjoyed.

A bevy of Nevada City young ladies took charge of the concessions which netted a goodly sum.

NEVADA COUNTY REUNION HELD IN LOS ANGELES

Nevada County group in Los Angeles area gathered for their 12th annual reunion in Sycamore Grove.

There are possibly over a hundred former Nevada countyans of record living in and near Los Angeles and each year they enjoy the reunion.

Among prominent members present this year were: Pete Purcell and family, Mrs. T. W. Golding, president of the Nevada County Association, Mr. Shirley, formerry of Columbia Hill; Mrs. Pinkham and son, Mrs. Dorris Taylor Conti, wife of Dr. Conti; Frank Sirard, formerly of Grass Valley, Frank Beckett, D. D Beatty and wife, Tomas Rafter the Sam Adams family besides many others.

RANGERS CALLED TO FIRE THOUGHT INCENDIARY ORIGIN

State Fire Ranger William F. Sharpe assisted by Assistant Ranger George Howe and fire fighters controlled a fiercely buring fire in the Sweetland district this week.

The fire covered about 125 acres of grass, brush and timber. Mr. Sharpe says it is undoubtedly of incendiary origin. Ranger Howe first to the fire with fire fighters, found it buring on a quarter mile front, with the start at the bottom of a hill.

JAMES ROLPH NAMED MINING GOVERNOR

At the Mariposa Mining Celebration held last Saturday at which Governor Rolph was the guest of honor, he was presented with a silver plaque upon which was inscribed: "To Governor James Rolph Mining Governor of California."

While in Mariposa the governor panned gravel and succeeded in recovering several good sized colors

Orovill has been awarded the honor of holding the second mining celebration by the governor.

The Mariposa miners won the game from the Nevada City team by a score of 12 to 5.

The Nevada City team had a wonderful pitcher in Waters, but the Mariposa boys were too speedy for the local boys.

ENGINEERS TO OPEN MATTIE GOLD MINE SOON

J. Berger, one of the organizers of the Mattie Gold Mining Company with Rush T. Sill, chief engineer, are preparing to open and equip the mine which was the old Alcalde mine. Mr. Sill, chief engineer will be stationed in Grass Valley for a year preparing for the opening of this property.

DELHI MINE IS WELL KNOWN GOLD PRODUCER

The Delhi mine is one of the rich quartz gold producers of this county and is spoken of by many of the local people as to its good ore.

A 4000 foot tunnel was run from the bed of the Yuba river. A shaft in 200 feet from the entrance of the tunnel was sunk 500 feet from the main, or drain tunnel. This shaft was all "high grade" ore and was worked out from the bottom of the shaft, with thousands of dollars being taken out.

The machinery was too light to handle the heavy flow of water as it was run by compressed air. It was closed down about the time of the World War. The mine is not worked to any great depth.

This property carries two good water rights, has a saw mill, machinery, buildings, and a supply of timber.

Mr. Louis Nonneman of San Francisco is owner of the mine. He has made several trips to the property in recent months.

HENRY GOERING EXHIBITS FINE ORE FROM HIS MINE

Henry Goering was in town Wednesday with a pretty specimen of rock which he brought into The Nugget office and is now on display This rock is out of a new discovery at a 7 foot depth. The shaft shows a 15 inch ledge of heavy mineralized ore. This ledge is running in a northerly and southerly direction, with indications that it will widen as the shaft is sunk.

This property is located in the same belt as the Hoge Development Company property.

HERMAN KUHLMAN PASSES AWAY IN SAN FRANCISCO

Edward H. Kuhlman, whose early life was spent in French Corral, passed away in San Francisco June 19th. His father was a pioneer resident of French Corral, and the son attended school there.

Mr. Kuhlman is survived by his wife, Mrs. Sadie Kuhlman, and the following children: Louise M. Campbell of Fresno; Herman Kuhlman of Spokane, Wash.; and Lloyd Kuhlman of San Francisco. A sister Mrs. J. W. Culver of French Corral is also left to mourn his passing.

ROY DIERCK GETS COUNTY JAIL SENTENCE BY JURY

Roy Dierck of Grass Valley was found guilty of a statutory offense against a thirteen year old girl of that city. The jury recommended a county jail sentence, which is mandatory on the court, and the defendant will avoid state prisn confinement.

GRASS VALLEY PREPARING FOR GLORIOUS TIME ON FOURTH

Grass Valley already has a festive appearance with street and individual decorations in place.

The celebration will take three days beginning Friday, July 3 and continuing on thru Sunday, July 5th.

On the evening of the third there will be drill contests between various corps of the Spanish War Veterans.

Band concerts will be held on the street corners every evening beginning July 2nd and continuing until the 5th.

The big historic parade will be held on the morning of July 4th. Nevada City will participate under the leadership of two civil minded citizens, Frank Davies and Elza Kilroy.

To date seven floats have been promised from Nevada City with several others who are considering the matter.

A fine program of sports is scheduled for the day of the 4th. A panning contest will be held. Each contestant fust put up $2. There will be two dollars worth of gold to each pan and the owner retaining the most of the two dollars will receive the prize. The winner of the Mariposa panning contest has stated that he will enter the Grass Valley contest in hopes of retaining the state championship. Races of all kinds are to be held.

Another gold mine is to be given away. All these facts are being told every evening over the radio.

Grass Valley is planning for a record crowd over the two day week record crowd over the two days of the week end of the Fourth.

ASSEMBLY CONCURRENT RESOLUTION NO. 57

This is the fifth of a series of articles of explanation of bills introduced by Assemblyman Seawell and passing both Houses of the Legislature.

Assembly Concurrent Resolution No. 37 provides for the creation of a Legislative Committee consisting of three members of the Assembly and two members of the Senate for the purpose of holding hearings to create a new Motor Vehicle Act that will be workable and beneficial to the motoring public of California.

In the past all motor vehicle legislation has been recommended by the Automobile Clubs, Automoble Dealers and Motor Carriers of the State. As the result, the Legislature had no one who was fully acquainted with the purpose of the legislation introduced at the suggestion of these organizations, and we now find many laws effecting Motor Vehicle transportation in this State that are a detriment to the welfare of the motoring public.

This resolution creating a legislative committee has for its purpose the holding of hearings to determine a permanent Motor Vehicle Act that will be submitted to the Legislature of 1933. This Committee will hold hearings throughout the State of California and invite the State Motor Vehicle Department, Department of Public Works and all others interested to be present and offer suggestions or criticism before the committee.

This committee, also, will attempt to confer with the States of Oregon and Washington and other western states in an effort to work out a uniform traffic law that will be the same in all the States entering into the program.

Thiswill be very beneficial from the standpoint of the tourists. At the present time a person traveling from one state to another becomes confused regarding the various laws through the States in which he travels.

Jerrold L. Seawell.

MINING PERSONALS

W. P. Hanson of New York and H. M. Gunn of Los Angeles were registered here this week.

L. C. Penhoel, well known Arizona mining man who now makes his home in Los Angeles was a Nevada City visitor.

Among the mining men who were in Nevada City in the last week were, E. F. Kincaid and L. E. Peters of Salt Lake City.

E. R. Pembroke of Santa Monica was also here during the past week

Claude Ferguson, safety engineer at the Empire-Star Mines is enjoying a two week's fishing trip.

Mrs. James Christie, formerly Miss Lucille Marsh of Nevada City, left recently for Chile. Her husband who is connected with the Anaconda Copper Mining Company has been sent there in the interests of his company. Mrs. Christie's father is Sherman Marsh of this city.

Z. L. Troast of San Francisco accompanied Mr. Kraut of Kraut Flotation machine on a trip to the Spanish Mine at Washington.

CALLS COMING IN FOR SPECIAL MINING NUMBER

Los Angeles, Calif.
June 14, 1931,

Nevada City Nugget,
Nevada City, Calif.,
Dear Sirs:

We note copies ofyour Mining Edition with great interest. Your 1930 Copy has been of great help to us in sending to our customers a list of available properties in your Counties.

We have always felt that there is a great need for a Mining Directory, that would make it possible for those seeking Mining Investments to investigate to a great extent, certain mines before having to go to the expense of making long trips before obtaining a good idea of the property before hand.

If you plan another edition we wouud appreciate a hundred copies at least which we plan to send to our agents and others in the East, especially in New York and Chicago.

We have a client in New York, now very anxious to secure a good mine.

Very truly yours,
Maurice-Smith & Co.

MINING ASSOCIATION TO BE REORGANIZED

There will be an important meeting of the directors of the Mining Association at Travelers Hotel, Sacramento on Saturday, June 27th.

At this time it is expected that Errol MacBoyle, president of the Idaho-Maryland Mines will be elected president. Kemp Van Ee, who has been president for the past two years will be gone indefinitely in the east ,has asked MacBoyle to serve temporarily until a meeting of the Directors could be called and an election held.

The By-laws of the Association are to be revised and a paid secretary, who will also be field organizer is to be elected. The matter of an official organ to keep the members in touch with the Mother Chapter and with each other will also be up for discussion.

CORNISH MINING CO STARTS OPERATIONS

The Cornish Mining Company, of which W. S. Coffin of Upland, Calif. is president, has begun operations on its property, located on Rock Creek just west of the Gold Hub mine.

Five men are employed on the property, which consists of 100 acres, including millsite. A tunnel has been driven 100 feet and a vertical vein nine feet wide encountered. It is said that this vein carries good values in arsenical sulphides. This is not, however thought to be the main vein, and the tunnel will be continued to where a still larger vein is thought to exist.

This company is incorprated under the laws of the state of Delaware with capital of $500,000. New York brokers are handling 100,000 shares of the company's stock, which, it is thought, will finance operations to point of production. —Mountain Messenger.

BOY SCOUTS CAMP PROGRAM IS READY

It is less than two weeks until the regular camp program is in full swing at Camp Pahatsi summer vacation and training camp for the scouts of Tahoe Area Council. Briefly, the day's program is:

7 A. M., first call; 7:25, flag ceremony, and 7:30, breakfast. At 8:10 A. M. comes the necessary work that must be done to live and and maintain camp, sanitary, campfire wood, kitchen wood, details in which each one in camp does their share; 8:50 A. M., prepare tents for inspection which will be held at any time during the day; 9:20 A. M., Scoutcraft and camp instruction; 10:49, Nature and handicraft; 11:10 Swimming Instruction; 11:30, Recall and preparation for dinner at noon; 1:30 P. M., Handicraft, hikes games, boating and special events; 4:20 P. M., recreational swimming; 5:10 P. M., colors following five minutes later by supper. At 6:30, evening games, and 7:45, campfire program is varied on account of Patrol and camp overnight hikes and special events. Nature hikes will again be held early in the morning and evening for those interested.

Work in camp is limited to that necessary to conduct and operate a camp.

Indications are that the campfire will be livened with many musical instruments as indicated by camp registrations which are within two of the big registration for last year's camp at this date.

Sunday, July 12th has been set as dedication day, the unveiling of a plaque commemorating the naming of Kilborn Lake. This program will begin at 1:30 P. M. All Lions 20-30 and Rotary Clubs in the Council Area, together with the American Legion Posts, the V. F. W. Posts and Loomis Men's Club have been invited to come and bring their families and a picnic lunch and to see the great possibilities this camp site posseses. The Roseville Boy Scout Band will be present that day to liven the program with some band music. These boys are a treat in themselves.

NEVADA CITY GIRLS GUESTS OF PIEDMONT

Three groups of local Camp Fire Girls are to be the guests of the Piedmont Camp Fire Girls at Camp Augusta near Lake Vera this afternoon.

The program includes a swim in the lake at 3 P. M. supper at the camp and camp fire with special stunts in the evening.

The local girls are taking 200 pounds of watermelon and after the camp fire the young people will enjoy a watermelon feed.

PLACERVILLE CREATES INTEREST MINE EXHIBIT

A feature of the entertainment plan for the stockade and casino was a special mining exhibit and lecture on early-day mining and historic matters. L. W. Loomis prepared the lecture which proved to be quite interesting.

The talk was devoted to comparison of early-day mining with that of the present day and a brief description of facts connected with the life and activities of Marshall, before, during and after the gold strike.

The mining booth at the stockade attracted widespread attention particularly on account of the operation of the model hydraulic apparatus and the one-stamp mill, operated by water power as were those of the earlydays.

DR. ROSS BONDS WILLOUGHBY MINE

The Willoughby Mine located in Gold Valley and owned by E. Farrel, was bonded to Dr. Ross of Reno. It is said he plans to develop the property on a large scale, as it is reported that he has sufficient New York capital to carry out his plans. Dr. Ross is highly pleased with the property.

COLOMBO MINE PROGRESS GOOD

Among the most intersting properties in the Sierra City Mining District is the Colombo Mine, situated n the slate and quartz porphyry belt three miles northwest of Sierra City. The mine is on the south exposure of the Buttes and affords a magnificent view of the Middle Yuba gorge and the high divide along the south.

The Colombo group consists of sixteen claims lying about parallel with the famous Sierra Buttes Mine, which is a mile further east and which was being worked by the Spaniards when the whites first entered the District.

There are two veins on the property which are of much greater prominence than the Colombo. One of these, lying parallel and about 600 feet in the footwall is a contact vein in the slate and against the porphyrite foot-wall. The other is a massive vein in the slates about 1000 feet further north. Plans are already being made to develop the contact vein from the present working tunnel.

Three tunnels have been extended into the property. The Upper, or No. 1 being the original tunnel in which an ore body over 400 feet in length was encountered within 200 feet of the mouth. This ore body has a distinct rake toward the northeast and has been stoped extensively above the No. 2 tunnel, which is not accessible. The ore in many places was as much as seven feet between the walls and is said to have run from $8 to $40 per ton.

No. 3 tunnel has been driven into the hill 276 feet vertically below No. 1, keeping well into the footwall.

From it a cross cut has been driven out into the hanging to the vein and a raise is now being driven to connect with No. 2 tunnel, which will be tapped within the next three weeks. This raise will be the means of disposing of a large vorume of water now dammed up above No. 2 and will also mage available a large quantity of ore which remains above this level.

No. 3 tunnel should develop ore to the extent of at least 10,000 tons on this shoot of ore, if the conditions existing in the upper levels are continued in depth—and there is every indication that they will be.

A small group of San Francisco people are financing the property, which is well equipped and under the management of Thomas Campbell, whose faith in the property has had much to do with its progress.

NUGGET POET SHOWN GREAT APPRECIATION

The beautiful poem "To Our Beloved Pioneers" by Joe M. Swazey was read at the requiem services of services of the late Judge Walling. Young Swazey has a gift for expressing himself in rhyme and his poems appear exclusively in The Nugget. His poems are full of pathos. His Mother's Day poem was especially beautiful, few read it with dry eyes and many clipped it from The Nugget to file away.

We expect to see Joe Swazey a second George Sterling.

GORDON HADLEY TAKING TRIP AROUND WORLD

Gordon Hadley left recently for a journey of eight or nine months which will take him around the world. This is the second or third trip of this kind the young man has made. His principal stop will be in India.

He left San Francisco on the Dollar line and the first stop was in the Hawiian Islands, the next will be Manila.

Young Hadley has just graduated from high school in Humboldt County and is the son of Dr. and Mrs. Hadley. Mrs .Hadley is the daughter of Mrs. George Scarfe of Nevada City.

He will stop at many ports before the trip is completed. These voyages are equal to a college education.

Mrs. Alice Hurst and mother of San Francisco are in Nevada City visiting her sister-in-law, rMs. J. J. Jackson and son, and wife.

THE NEVADA CITY NUGGET

COZY CORNER

The fact that Nevada City is experiencing a boom is at that a well known fact. Everywhere people are speaking of it.

Last Saturday night the town was filled with strangers, and Broad Street looked as if there was some sort of a celebration going on.

The natives of Nevada City complain that when they walk down the street the only familiar faces they see are the merchants. Everywhere the talk is mining and on nearly every corner a deal is being put over or its possibilities discussed. Everyone who owns a claim is in demand from possible buyers. Several mines in the vicinity have been offered a figure for their mine running into seven figures and have refused.

Within the last few weeks several large English Companies have sent men into the district to buy one of the producing mines—only to find they are not for sale.

There are a number of deals pending and those having property are rushing development work as fast as possible.

Recently there passed by The Nugget office a cavalcade which brought back to mind the old forty-niner days—an old prospector with six burrows heavily loaded with prospecting appurtenances. His hair was grey and step was feeble, but in his eye was the light of conquest and I know he was saying to himself, "Thar's gold in them thar hills". Several other smaller prospecting outfits have gone thru town.

Within the past few weeks The Nugget has sold 75 location notices, both placer and quartz and since the customer usually takesonly from two to six it is easy to figure the number of new location being made.

The streams are lined with men panning for color. Many make their living this way earning from $1.50 to $5 or $7 a day according to how good the gravel is where they are panning and how diligent they are.

The editor recently had an amusing experience. A woman came into the office with her two grown sons and wanted to know how to go about getting gold. I did not understand her and started to explain location notices etc., but it developed that they had been camping on the river and had panned some gold using a pudding pan to wash the gravel. They showed the result—about a quarter of an ounce of fair sized flakes. They had never seen the regular pan! Needless to say they went back to the location equipped to obtain the colors.

Nevada City has no hard times. Wages are good and all the local men are employed. It is true that there is not enough work for all the men who have come in from the outside seeking jobs in the mines, but among the citizens there is no idleness. Rumors that some of the mines were doubling their number of employees have brought about this condition.

Nevada City is experiencing a shortage of houses and the busness locations long empty are gradually filling up. Mr. Woodman has a large number of enquiries for possibilities of opening up varous mercantile establishments.

This is only the beginning. **WATCH NEVADA CITY GROW!**

MILTON MINING CO. SUED FOR $2,197.17

C. E. Stanley, Stockton electrician filed suit in San Andreas Saturday against the Milton Mining Company, for $2,197.17. The complaint charges that the amount of $1545.58 is due Stanley for supplies, furnished the mining company and that $526.34 is due the Greene Manufacturing Company of Angels for machinery and $125.25 is due J. J. Stringer of Jenny Lind for labor. The latter two claims have been assigned to Stanley for collection.

The Milton Mining Company operated a dredger on Rock Creek between Jenny Lind and Milton. The following officers of the mining company are named as defendants in the complaint: Charles Chambers George Terrill, G. L. Gardela, S. V. Cornell, John Anderson, Dr. Erick Julian, H. H. Smith and C. C. Hale. —Calaveras Prospect.

OVER WORKED NERVES

UP TO your ears in work—every nerve at high tension. No wonder you snap at the wife and bark at the children.

Watch out! Overworked nerves may lead to Sleeplessness, Nervous Headache, Nervous Indigestion and a host of other unpleasant disturbances. Why don't you try Dr. Miles' Effervescent Nervine Tablets?

Just one in a half glass of water makes a pleasant, sparkling drink delightfully soothing to over-taxed nerves.

Dr. Miles' Nervine is now made in two forms—Liquid and Effervescent Tablet. Both have the same soothing effect.

$1.00 at your drug store

DR. MILES' Effervescent NERVINE TABLETS

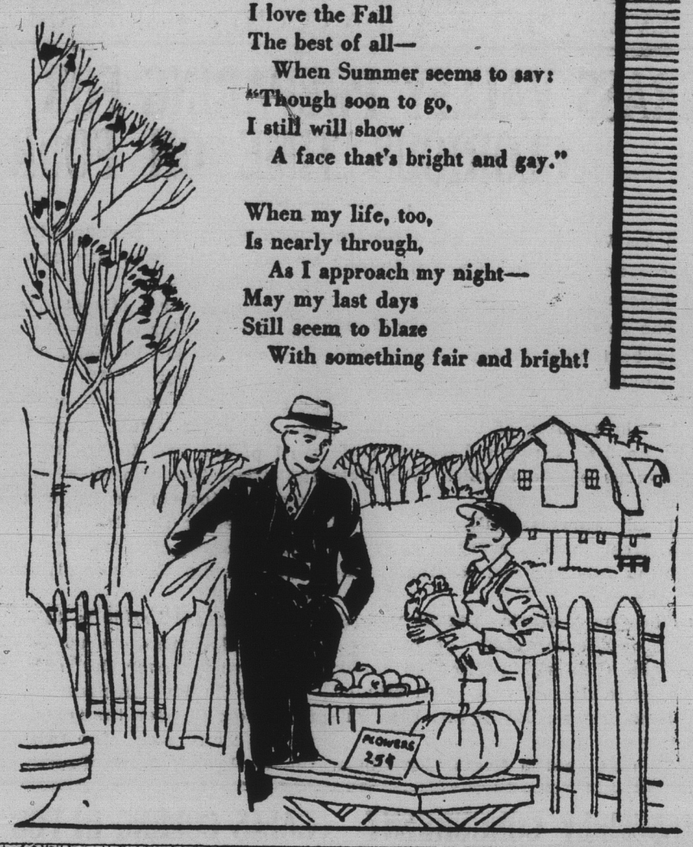

You and I

By CHARLES S. KINNISON

AUTUMN

I love the Fall
The best of all—
When Summer seems to say:
"Though soon to go,
I still will show
A face that's bright and gay."

When my life, too,
Is nearly through,
As I approach my night—
May my last days
Still seem to blaze
With something fair and bright!

ELECTRICAL WIRING

L. B. Gregory will do all kinds of electrical wiring and all kinds of ignition work. He is well known here for his high class work.

Anyone wishing his services may call the Miners Foundry, Phone 10.

NOTICE

From now on the Colfax Bakery will supply their products to the Sacramento Street Grocery, Nevada City, California.

ANGELINI CICOGNI, Prop.

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

SILVER CONFERENCE IS COMING IN FEW MONTHS

SHANGHAI, June 4— Sen. Key Pittman, who is here studying the silver question, predicted there would be a conference within three months, despite Senator Smoot's announcement that foreign nations opposed the projects.

SALT LAKE, June 4—Sen. Smoot took exception to a statement by Sen. Wm. H. King ,his democratic colleague, in which he declared the fear of an international debt discussion need not prevent the United States calling a conference, since it could limit the subjects of the discussion.

"President Hoover is as deeply interested in this silver question, as is anyone", Senator Smoot's statement said, "He is a mining engineer He realizes the seriousness of the silver question and has been doing everything in his power to alleviate this distressed condition.

"The international chamber of commerce comprised of leading bankers, manufacturers and merchants throughout the world in a recent convention here strongly recommended calling of an international conference to consider the silver question.

"As a number of governments do not desire themselves to be directly represented by such a confer ence, I suggest that we should call upon the international chamber of commerce to call a non official informal conference of representative men on this question at some point in Europe, preferably Londan".

"This non official conference should consist of delegates representing the different countries of the world. There is no possible accomplishment to be made in the stabilization of silver except by cooperation of India, China, British dominions, France, Japan, Italy and other principal continental nations.

"I have no doubt that the United States will co-operate. Such a conference could recommend definite plans and methods which governments will then take cognizance for official action".

FRENCH CORRAL ITEMS

FRENCH CORRAL, June 25, — Well we have passed through the longest day of the year, and an ideal day it was. Since the rain of the 15th the weather has been cooler.

They come! They come! So many of the old time friends and neighbors and oh, what a joy to meet them, even for a short hour's visit. Through haste several names were omitted last week but we will mention now that Mr. Clarence Hoffman and son, Milton, of Sacramento enjoyed a camping trip of several days near their old home town.

An old friend Bill McCullough, now of Berkeley, Mr. Yore of Sweetland, Geo. Alpers of Nevada City, Mr. Gunn of Los Angeles, Miss Millie Clerkin of Pike City, Mr. Harris of North San Juan, Mr. and Mrs. De Guire and daughter, Mrs. Dunn of Nevada City were all visitors during the week.

Dr. A.J. Powell returned to his home in Oakland a week ago.

Miss Therese O'Conner of Birchville attended the session of Grand Parlor N. D. G. W. at Santa Rosa the past week.

Mr. A. T. O'Connor is home from San Rafael to spend his summer vacation with relatives in Birchville

Mrs. E. Sutherland and Mrs. T. Schwartz made a trip to Sacramento last Tuesday. Mrs. K. Sullivan accompanied them as far as the Pioneer Ranch near Newcastle, where she went to visit an old friend and schoolmate, Mrs. Belle Fagg Fowler. Mrs. Fowler's father, the late George Fagg was an early resident of French Corral, where he was in the merchandise business for many years. Her grandfather, David Wood, was also an early timer and owned the Bridgeport toll road. It was he who constructed the covered wooden bridge which still spans the South Yuba at Bridgeport. This wonderful old relic was built in 1862, and is yet in perfect condition. We learn there is now but one other like it in existence in our state.

Mr. Grant, "the Rawleigh man" was a Tuesday visitor.

Mr. King and little daughter of Marysville were Thursday visitors. Mr. King had some fine apricots for

Mrs. Bancroft and daughter wh have been camping noar Sweetland were Thursday visitors. Miss Bancroft is interested in early day California history.

Mrs. Sam Slack and son, Ira, of Hollywood were Frida y visitors. Mrs. Slack and her late husband were old time residents of Sweetland and most of their lifetime was spent in that place. They are visiting Mr. and Mrs. C. H. Jones of Sweetland.

Miss Evelyn Jones has finished her college days and is at her home in Sweetland.

Mrs. Wm. Burnett also has visitors, her niece, Miss Ruth Hare, and her son and daughter, Richard and Phoebe Colton.

Mr. and Mrs. R. McNamara of Tyler were Friday visitors.

Mr. Henry Carreg and his daughter, Mrs. Madge Conway of San Francisco were Friday visitors. Mr Carreg was an old time resident and his daughter, Mrs. Conway, was born here. They love Nevada county and every summer delight in spending a few weeks at Olympia Park and visit with frinds on the San Juan Ridge.

Mr. Wm. Gish, who has been sojourning here for several months, has gone to visit his sister in Susanville.

Mr. and Mrs. W. E. Moulton made a trip to Sacramento Saturday On their return they were accompanied by their daughter, Frances, who spent the week end at her home with them.

Mr. and Mrs. A. Browning returned to French Corral Saturday and report Mr. Browning's mother much improved. Mr. Browning is again having trouble with his hand which was injured in a mining accident several weeks ago and has gone to Sacramento for medical treatment

Mr. and Mrs. E. Chatty and Mr. E. Hadley and Miss Frances Moulton attended the dance at Camptonville Saturday night.

Mr. and Mrs. Joe Fogarty and Mrs. Fogarty's mother, Mrs. J. Dalberg of Hammonton, and Mr. Thos Fogarty of Marysville, and sister, Mrs. M. J. Sullivan, and niece, Mrs. M. Murrey of San Francisco, were Sunday visitors.

We must extend congratulations to some of our Ridge people who have launched into the matrimonial sea. Miss Gladys Thomas and Mr. R. Young now of Nevada City and Mr. Henry Flynn and Miss Elsie Cassi of Colgate where they will make their home and where Mr. Flynn is employed. Miss Thomas and Mr. Flynn are natives of Birchville.To both couples of newly weds we extend best wishes for all future happiness.

Alas the reaper is ever busy, and with sorrow, we learn of the passing o ftwo of our French Corral people, Edward Kuhlman passed away at his home in San Francisco last Friday. All his years, from babyhood to his married life were spent here and attended our school. Of late years he has made his home in San Francisco. His many friends join us in deepest sympathy to his sister, Mrs. J. W. Culver of this place, and all the members of his family. John B. Moulton who spent all his early life in this place, passed away at Forest City Sunday after a long period of illness. We extend deepest sympathy to his brother, W. E. Moultonof this place and all the members of his family.

Also we must mention our beloved and honored Civil War Veteran, Judge J. M. Walling, who was laid to his final rest last week. Altho he had attained the great age of nearly 90 years all hearts were sad to know that he must leave us. His life had been so interwoven with the affairs of Nevada County that he seemed really part of it, and a vacancy is left which can never be filled. All loving honor to him for he has served his state and nation well, and our deepest sympathy to his family.

PURCHASED LEASE, BOND ON YELLOW ASTER MINE

San Andreas, Calif. June 25—Oscar Brink, former Alaskan mine operator, has purchased from Franklin & Company of Los Angeles a lease and bond on the Yellow Aster property, owned by W. W. Congdon of West Point and located on the Mokelumne River five miles north of that town. The new management is reconditioning a three-stamp mill on the property. Current underground operations include the continuation of a 500-foot drift tunnel on the Yellow Aster vein advanced in the early days The working is following two feet of gold ore averaging $40 a ton, it is stated. From the 375-foot point in this tunnel a crosscut is being extended west to intersect the China vein. Thus far it has been run about 40 feet. It is estimated that about 20 feet of additional work will be required to reach the objective.

LOCATION NOTICES—Quartz and placer location notices for sale at The Nugget office at 5c each.

PREPARATIONS MADE FOR DEVELOPING BELLEVIEW

Sonora, Calif. June 25—An orebody, having an average width of two feet and yielding a mill saving of $17 a ton in gold, is being developed by the Republic Mining Company at its property on the Stanislaus River, five miles northwest of Columbia. Thus far the orebody has been followed about 260 feet by drift run from the 1,400-ft. point in a 1,600-foot tunnel, 800 feet of which was extended in the early days of California mining. The present face of the drift gives a vertical depth on the orebody of 2,000 feet, according to Manager T. H. Konrad, who is directing operations. He states that a cyanide unit is soon to be installed in the milling plant, which at present embraces nine stamps and two concentrating tables.

Operating under a 25-year lease recently obtained from the owner, Charles Winchell of Vallejo, Calif. Roy Clements, formerly a Hollywood motoion picture prducer, and assciates are completing preparations for a systematic development of the Bellview mine, a notable early day lode gold producer eight miles east of Sonora. Their workmen have completed the building of a half mile electric power line from the adjoining Fortuna mine and are at present engaged in the installation of an electric hoist and pump preliminary to the dewatering of the 800-foot two-compartment incline shaft on a ten-foot vein, which according to authentic records, averaged $12 a ton in gold when last worked in 1915. Mr. Clements plans for the future operation of the property include the erection of a 100-ton daily capacity ball mill and concentrating plant, following completion of the unwatering of the mine.

—0—

MOTHER LODE TOWN TO PRODUCE GOLD AGAIN

San Andreas, Calif., June 25—Angels Camp, producer of upwards of $150,000,000 in gold up to 1917, since which time it has been practically a slumbering Mother Lode town, insofar as major operations, should soon resume the yield of its latent treasure, as a result of the successful conclusion of negotiations involving two of its most widely known properties—the Angels and Sultana mines. Official announcement of the closing of the deals has just been made.

Under lease and bond arrangements, Elmo Lincoln, Hollywood business man, formerly a movie star; Todd B. Elliott, San Francisco mining engineer; and associates have acquired the Angels mine from the James V. Coleman Estate of San Francisco and the Sultana mine from the Waterbury, Conn., bondholders' committee of the Sultana Mining Company. Mr. Elliott states that the reopening of the two properties will be inaugurated within the next week. He estimates that four months' time will be required to unwater the properties, using pumps capable of handling 1,500 gallons of water per minute. These willbe installed at once. Future development of the two mines will be prosecuted through the Angels mine shaft, under the supervision of Mr. Elliott.

The Angels mine, embracing 110 acres, was operated by the late Jas. V. Coleman from 1896 to 1917, during which period, according to official records, it produced $10,500,000. Following Coleman's death in the latter year, the mine was closed down and has since remained idle, with the exception of a short period about two years ago when the 850-foot three-compartment vertical shaft was retimbered. The mine in past operations was developed to a total depth of 1,000 feet, a 200-foot winze having been sunk below the bottom or 800-foot main level.

Six veins, varying in width from 10 to 100 feet, course through the Angels mine estate. All of them have been more or less explored but development work was largely confined to the Utica and Crystal ledges The main shaft is equipped with a 200-horsepower electric hoist which will be again placed in commission as soon as a new 60-foot headframe is erected. The property has a 40-stamp mill, which requires only minor repairs.

The Sultana mine adjoins on the north the Angels mine. It has an area of 60 acres, mostly virgin territory, and is traversed by the extensions of five of the six veins of the Angels mine. It is credited with a production of $1,500,000 and has an 800-foot two-compartment vertical shaft. The property has been shut down since 1917 when its surface equipment was destroyed by fire.

MONTANA MINES FALL OFF IN PRODUCTION

Less than half of the metal produced in 1929 in Montana was produced in 1930. In 1929 the total value of mine production was $71,779,547 while in 1930 the production fell to $32,720,416.

Of this loss silver, copper and zinc were the heaviest losers. Copper with a 297,725,973 pound production in 1929 fell off over 100,000 pounds last year. Silver fell from 12,716,977 to 7,052,889, with zinc the largest per cent from 136,351,734 to 52,841,108.

Gold production fell off the least of any with 54,758.03 in 1929 and 43,489.17 in 1930.

OLD LEDGE MINE CO. STARTS DEVELOPMENT

San Francisco, June 25—The Gold edge Mining Company, which oper- tes the Feliciana Mine on the other Lode in Mariposa County, as opened up a new ore shoot owing highgrade gold values, ac- ording to word brought here by of- icials of the company who just re- urned from a visit to the property.

The strike was made in a raise bove the 400 foot, or tunnel, level. pecimens of the rich ore were rought here by company officials.

Besides raising on the ore the ompany is sinking a winze from he 400 level in accordance with the ew development program outlined y engineers when the property was aken over by the Gold Ledg Min- ng Company. Heavy equipment is eing installed to farilitate this ork and allow for exploration of eins in other parts of the mine, ar- ording to Hans Larsen of San rancisco ,president.

The Gold Ledge Mining Company as received from the State Corpora- ion Department a permit for addi- ional financing which will enable he company on a more intensive levelopment campaign on the Feli- iana Mine as well as the Duncan ine which is under bond and lease o the company.

THE DYING MINER'S LAST REQUEST
By Joe M. Swazey

Down in the dark depths, of a cold wet mine
Just at the close of day;
Half buried in rocks, and covered with slime
A dying miner lay.

The air floated up from the level below
Filled with a gassy taint;
While his pardner stood close by, with head bent low
To catch his whispers so faint.

The dying miner slowly turned his head
Till his eyes came to rest on his pard;
He tried to smile as he sorrowfully said,
"The parting is going to be hard.

When you tell my darling wife the news
Speak easy, with caution, and care,
So the shock of her lover' sad ending
Will not be so hard to bear.

When you see my curled haired youngsters
You'll find them waiting out by the gate
As they've done ever since they could toddle,
Tell them, their daddy won't be home until late.

Say pard, there's no use in trying to kid me,
I know I'm going to die;
So please tell the boys in the morning
Please tell them, that 1 said goodbye.

And pard, when you stand by my casket
And my friends are all gathered 'round;
Will you put in my light, cap, and carbinde
For my last long shift underground?"

LARGE NUGGETS FOUND BATTLE MOUNTAIN MINE

Sutter Creek, Calif., June 25—Placer gold gravel of bonanza value is being extracted by the Lagomarsino Brothers in the development of their Battle Mountain property, a half mile northeast of Volcano, one of the most famous of the early day camps of the Mother Lode. Nuggets as large as a hen's egg and valued at $130 have been found recently. The owners have thus far accumulated about 25 tons of the rich material, the exact value of which will not be determined until washing operations are inaugurated. They are now reconditioning their washing plant for that purpose. They state that the pay dirt has a thickness of about three feet, with its width and lengh still to be ascertained.

The discovery has been made in the lowering of the grade of a drift tunnel having a total length of 2,200 feet, 1,800 feet of which passes through the Cleveland Consolidated property of Frank Devencenzi and Frank Garibaldi of Volcano. In advancing the tunnel up to the Lagomarsino property line about ten years ago, Devencenzi and Garibaldi, it is stated ,extracted gravel yielding as high as $36 to the half-ton car. This is equivalent to $108 a cubic yard, since a ton and a half of the gravel makes a cubic yard. It is further stated that in the Cleveland Consolidated property, on the boundary line of the Largomarsino holdings, the gravel was mined for a widthof 80 feet and a thickness of from one to three feet.

Although official information is lacking, there are indications that the management of the Lincoln Gold Mining Company is contemplating the resumption of develpment work on its property, which adjoins on the north the Old Eureka mine of the Central Eureka Mining Company and extends through this town for more than a half mile along the Mother Lode. The Lincoln company is controlled by officials of the Calumet and Arizona Copper Company. Its property embraces four mines, namely, the Lincoln, Wildman, Mahoney, and Emerson, all idle since 1912 and on which there are four shafts varying in depth from 600 to 2,000 feet. Recently the company has had two mining engineers of high standing visit the property and make a thorough study of it and adjoining mines, particularly the Old Eureka, to which the Central Eureka management is confining its operations with highly pleasing results.

0

CINNABAR MINE ACTIVITY STARTS

Development work is being done on the Cinnabar mine about one and a quarter miles from the Cinnabar springs on Beaver creek by the Carl Davis Mining Company, whose headquarters are in New York.

D. F. Smith of Washington, D. C. is local manager. He reports conditions most favorable at the mine. Up Beaver creek the mine is only about ten and one half miles, but by the Dry Lake Lookout road it is about thirty-five miles farther.

Mr .Smith states that the mine will install machinery and will furnace 100 tons of ore daily, except when closed for repairs, provided a road is built to the mine.

They could use seven to nine hundred gallons of fuel oil daily, but would have to have an all-year road in order to operate.

Obtaining mercury might be considered a distilling proposition. The ore is heated until the mercury is changed into gas which is later condensed into liquid mercury.—Siskiyou News.

JAMISON MINE WILL SOON PRODUCE AGAIN

Johnsville, June 25—Ten men are pushing forward a program of work here that will, when completed result in the renewal of production from historic Jamison Mine. They compose a crew working under the direction of Ray Jefferson, representing the new owners.

Jefferson arrived here May 1st, and immediately set about to restore the mine's machinery to operating condition. The mine was purchased December 22nd last year by New York and Reno interests headed by the new superintendent's father, R. J. Jefferson.

Its owners up to that date were the Plumas-Eureka-Annex Mining Co. of which N. . Srdonovich is president and general manager.

The mine operated with a few temporary shut-downs, continuously from 1852 to 1928.

J. A. Talbot, Los Angeles oil magnate, who had the mine under lease and bond ,withdrew in 1928. Srdonovich instituted negotiations with the Jefferson interests that culminated in the sale of the property last December.

The Jefferson interests, as the Carnation Gold Mining Co., Ltd., operate extensively in California and Nevada.

The Carnation people will open up the Big Jamison, bringing the ore out to a new crushing plant now under construction. The ore will be conveyed across the canyon of Jamison creek to a point near the south of Little Jamison, and dropped from there to the stamps located a short distance below.

Approximately 200,000 tons of ore have been blocked out in Big Jamison, assaying about $16 a ton. The high grades run up to $300.

The old floor in the stamp mill is being torn down to make room for new machinery. The mill is being re-designed to handle 150 tons of ore per day.

A crew of 30 to 35 men will be employed to handle this production. The present staff of ten men is engaged in surface work only—rebuilding the stamp mill, erecting the coarse gold crusher at the mouth of Big Jamison, and building the ore conveyor system.

Ray Jefferson, superintendent of the mine, told the Bulletin reporter Sunday that development at Jamison "is indicative of what is going to take place in the gold mining industry throughout California".

"There is plenty of capital in the country," Jefferson declared. "It hasn't evaporated, and it's looking for outlets. On account of the world gold shortage, gold mining offers attractive opportunities".

"Speaking relatively, this attraction is at present very decided as production of the other metals is not profitable. I look for a great revival of gold mining".

Jamison mine has water rights from four lakes situated in the mountains above it to the southeast These include Grass, Rock and Jamison Lakes. According to Srdnovich the water rights "are the best owned by any mine in the world".—Feather River Bulletin.

0

PUNCH BOWL COMPLETES GRAVEL WASHING PLANT

Jamestown, Calif. June 25—John Morris and associates of Los Angeles have completed the erection of a 75-ton daily capacity placer gold gravel washing plant on the Punch Bowl mine, three miles southwest of this town, which they are operating under a lease and bond from the owner, C. E. Shafer of Jamestown Since recently taking over the property, their force of miners has cleaned out and retimbered a 1,500 bedrock tunnel and a 38-foot raise, as well as installing a two-drill air compressor and other necessary equipment. Manager J. S. Cademortari states that work for the immediate will be confined to drifting north upstream from the top of the raise and the extension of crosscuts therefrom to the rims of the ancient channel being explord to determine the width of th pay course. The tunnel and raise was run by a French company from 1912 to 1914, inclusive, operations being suspended in the latter year on the order of that government.

0

SAM S. ARENTZ WILL EXAMINE OLD DEATH VALLEY MINE

Cong. Sam S. Arentz finds time during recess to look after his ranching interests and also to do some mining on the side.

On the present trip he is "killing two birds with one stone," for he left for the old Mormon mine in Death Valley to make an examination.

The Mormon mine lies in California, 18 miles west of Shoshone. It had belonged to the Mormon church for many years but is now the property of B. J. Cannon of Salt Lake City.

It is a gold mine and is quite extensively developed. It is claimed there is $4,500,000 worth of $7.90 ore blocked out. Last summer three 20-ton shipments were made from the property, the lowest returning $80 a ton and the highest $127.—Goldfield Tribune.

BUILDERS OF CALIFORNIA

'HOP YÜNG' in HONG KONG
OK in NEW YORK

California canned fruits have won world-wide fame and favor. Hong Kong, London, Paris, Rio know the labels so familiar to New York, Dallas and Detroit.

A triumph for accurate, uniform grading! California's rigid specifications set the standard for the world.

The canning and allied industries use Bank of America's unique service in every step from ranch to table.

This Bank assists thousands of growers to finance production of their yearly crops.

Then—*the harvest*. Fruits and vegetables pour into canneries by the ton. During a few weeks, millions in cash must be paid to growers and 65,000 workers; millions more invested in containers and supplies.

Credit, extended by Bank of America helps to finance both production and storage of the "pack".

One-half billion cans, ready for world markets! As shipments flow by highway, rail and water, Bank of America discounts commercial paper; solves problems in foreign exchange; collects and transfers funds from far and near.

ALL of the 10 largest canning companies in California are depositors in Bank of America

MEMBER FEDERAL RESERVE SYSTEM

Finally, this Bank serves scores of brokers and wholesalers, more than 4,000 grocers—and hundreds of thousands of consumers throughout the state. . . . A nearby branch brings this *complete* banking service to *you*.

The following were registered at Hotel Francis during the past few days: George E. Wilson, William Le Masters, Leland Smith, Nevada City Russel W. Beason, Berkeley, Mr. and Mrs. A. Fordfi Arthur M. Towney, Blairsden, Ethel Walter, Peggy Walter, San Francisco, Helen Mears, Stanford University.

C. N. Chatfield, superintendent of the Alta View mine, motored to Nevada City Wednesday.

The residence of David Lewis on Spring street narrowly escaped destruction by fire Monday afternoon when a spark from the kitchen pipe lit on the shake roof and ignited it. Dave, who was cooking his evening meal, heard the roar of the flames, and rushed to the roof with several buckets of water putting it out.

The benefit dance held at the Masonic Hall Saturday evening was a success with a large crowd from all over the surrounding country in attendance. Mary old timers and former residents took advantage of the occasion and many a happy reunion among old friends was enjoyed during the evening. The Meltz orchestra from Auburn furnished the music and a big supper with lots to eat for everyone was enjoyed at midnight.

Another similar dance has been announced for Saturday evening, July 25th.

A very interesting and instructive illustrated lecture was given in the auditorium of the Masonic Hall Thursday evening by Junior Forester James H. Gibson, to an audience of over 100 persons from all parts of the surrounding country. The subject covered the National Forests, their welfare and protectin, and what they mean to the individual citizen. The subject was put over very well, and the information and knowledge imparted will be very helpful in permitting many of the listeners to look at the subject in a different angle, and will cause many of them to be more careful in many ways. Following the talk severa l reels of motion pictures were shown; one of fishing, and another of exceptional interest, showing the running down, capture, and killing of mountain lions.

Arrangements for the lecture were under the direction of Forst Ranger Frank W. Meggers of the local office.

Mrs. Louis J. Joubert of Oakland and James L. Joubert of this place left Wednesday for Sawyers Bar, Siskiyou county, on a short visit.

LEGAL NOTICE

SUMMONS

NO. 5928

In the Superior Court of the State of California in and for the County of Nevada.

ANNA LUTHER, Plaintiff,
v.
JOHN JOHNSON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership ,or any cloud upon plaintiff's title thereto, Defendants.

Action to determine adverse claims to and clouds upon title to real property, brought in the Superior Court of the State of California in and for the County of Nevada, and the complaint filed in the office of the Clerk of said County of Nevada.

NILON, HENNESSY & KELLY, Attorneys for Plaintiff, Grass Valley, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO:

JOHN JOHNSTON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY directed to appear, and answer to the complaint in an action entitled as above, brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons—if served within this County,—or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or she will apply to the court for any other relief demanded in the complaint.

The following is a statement of the object of the action:

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the property herein described; that the plaintiff is now, and has been, by herself and her predecessors in interest, the owner of and in the actual, exclusive and adverse possession of the property hereinafter described continuously for the period of more than twenty years immediately preceding the filing of the complaint in this action, claiming to own the same in fee against the whole world, and that plaintiff has, by herself and by her predecessors in interest, paid all taxes of every kind and nature whatever, levied or assessed against said real property during the period of five years continuously immediately preceding the filing of complaint aforesaid; that the claims or claim of said defendants is without right, and that they have not, nor has any, or either of them, any right, title, estate, lien or interest in said real property or any part or portion thereof.

The land and property affected by this action is:

All that certain real property situate in the City of Grass Valley, County of Nevada, State of California, and bounded and particularly described as follows, to wit:

All that portion of Lot 9 in Block 27 of the Town, now City, of Grass Valley, as said lot and block are designated upon the official map of the Town of Grass Valley made by Samuel Bethell in the year 1872, and more particularly described as follows, to wit:

Beginning at the South East Corner of Lot 9, on the North line of Neal Street of said City of Grass Valley, from which the South West corner of Lot 8, the intersection of the East line of Mill Street and the North line of Neal Street, bears N 57° 18' W at the distance of 208.11 feet; thence N 22° 34' E along the line between lots 9 and 10, 66.89 feet to the corner common to lots 9, 10 and 12 of said Block 27; thence N 18° 14' E along the line between lots 9 and 12, 47.14 feet to the North East corner of lot 9 on the West line of lot 12; thence N 67° 50' W along the line between lots 9 and 6A, 38.50 feet; thence S 23° 47' W 105.73 feet to the Northerly line of Neal Street; thence S 57° 18' E along the Northerly line of Neal Street to the place of beginning.

GIVEN under my hand and the seal of the Superior Court of the State of California in and for the County of Nevada, this 15th day of May, A. D., 1931.

R. N. McCORMACK, Clerk.

By ....., Deputy Clerk.

MRS. EMMA PALMER PASSES TO BEYOND

Mrs. Emma Palmer , a native of Wisconsin, aged 80 years passed away at her sister'-in-law, Mrs. Frank Beedle's home. She had resided in Nevada City about four years.

Her long life had been one of usefulness and help to others. She bore her illness with Christian fortitude.

Mrs. G. M. O'Connor and Roy Beedle of Nevada City, are niece and nephew, with other relatives in Wisconsin.

The funeral was from the Little Church Funeral Home, Rev. H. H. Buckner officiating at the funeral services.

BUTTE MINING INCREASES

The Mt. Arrarat Extension mine is being worked by Louis Peterson of Palermo. The Gold channel commences at Mt. Arrarat. Plumas county and runs southwest into the Sacramento Valley.

The Lucky Lindy mine is being operated by Gus Hermes, with Emil Zink of Brush Creek, adjacent to the Old Gold.

The Patsy Mine has been leased to Dave Mitchell and John W. Rooney of Kern county. This property is situated near the Genii mine.

Articles of incorporation were filed by the Honcut Gold Mines Co., Ltd., with a capital stock of $300,000. Directors are Wm. Woodburn, A. Shaughnessy, G. Burnett, R. McCarty and Wm. Gray. The company office is in Reno.

Fifteen or twenty men are washing gravel of Feather River for gold in front of the Edson place, northwest of Gridley. Hard times have induced the novice to try his hand. Some of these men are making about 50 cents a day. Some of the miners use sluices, some rockers, but those that use gold pans are about as successful as any.

JOHN B. MOULTON PASSED AWAY AT FOREST, SUNDAY

John B. Moulton, a life time resident of Nevada and Sierra counties passed away Sunday eve at his home in Forest from ailments due to age.

He was born in French Corral 75 years ago, with early life spent in that section. Most of his life has been spent in Forest City.

He was a highly skilled miner and followed mining all his life.

Mr. Moulton was highly respected by all who knew him and will be remembered for his many acts of kindness.

His wife passed away several years ago, but he is survived by tree daughters and one son: Mrs. C. L. Johnson, and W. E.Moulton of Alleghany; Miss Margaret Moulton and Mrs. Cecil Pharris of San Francisco, and the following brothers and sisters, W. E. Moulton French Corral; Mrs. Thos. Fogarty, Marysville, Mrs. C. Perry, Reno, and Mrs. Theodore Wetzel, San Francisco.

Rev Buckner of Nevada City conducted the funeral services, with funeral directions being by a representative of the Holmes Funeral Home.

LA BARR DANCE HALL TO HAVE SPECIAL EVENTS

The LaBarr Meadows dance hall is making an early start for the holiday celebration by arranging for specal entertainment next Saturday evening. Plans are for Evelyn Tucker and her partner, recently of the Fox-Orpheum circuit of San Francisco, to furnish a spirited program.

The Red Hat orchestra, peppy playing musicians, who have proved so popular in the past, will furnish the music.

POPULAR YOUNG COUPLE TAKE MARRIAGE VOWS

On Saturday morning, June 20th, at nine o'clock, St. Canice Catholic church was the scene of a pretty wedding, when Elsie C. Casci became the bride of Henry C. Flynn, with Rev. Father O'Reilly officiating in the presence of near relatives of both parties.

The bride charmingly gowned in white silk with hat and shoes to match entered on the arm of her father and was followed by the bridesmaid, her sister, Miss Edith Casci, also charming in pale yellow, with the grooms father.

They were met at the altar by the groom and his attendant, Aldo Casci, brother of the bride.

After the ceremony the weddnig party adjourned to the home of the bride's parents where a delicious wedding breakfast was served. Both church and home were tastefully decorated with pink and white roses.

Later in the day amid good wishes and congratulations the happy couple left for an extended wedding trip after which they will go to Colgate, Yuba County, where the groom has furnished a cozy cottage.

The bride is the daughter of Mr. and Mrs. V. Casci of Nevada City and a graduate of Nevada City high school, while her husband is the son of Mr. and Mrs. P. H. Flynn of Nevada City and holds a lucrative position with the P. G. & E. Company at the Colgate Power Plant.

Both young people have many friends that wish them "bon voyage" on the "sea of matrimony."

TRANSFER IS MADE OF NEW ENGLAND PROPERTY

A deed from the New England Consolidated Mines Co., to the California Juneau Co., Ltd., was placed on record in the recorder's office this week. It conveys the New England Mining properties lying between Nevada City and Town Talk ridge.

Mrs. George F. Hampton of San Francisco, spent the week end with her parents, Judge and Mrs. F. T. Nilon.

That Old Piece of Jewelry May Win a Prize

From July 1st to July 6th the firm of H. W. Hartung & Son will make a special window display of old time jewelry, featuring watches, necklaces brooches, earrings, charms, links and other articles of historical interest.

You are invited to bring in old heirlooms or keepsakes which will be labelled with the owner's name and the approximate age and placed in our window. It is only necessary that the pieces be well preserved and of sufficient age to justify their showing.

We guarantee safe keeping and a prompt return of the articles loaned. As a special inducement we will present a prize for the article judged as making the best display.
